

For more than a century, we have been shaping progress in our product sector as technology leader – whether it's starter motors, generators, start/stop systems or mild hybridization. Innovation, development expertise and the highest quality standards make us a reliable partner for automotive manufacturers – at 16 locations worldwide.

Our products are not only efficient and durable, but also provide high functional flexibility and the right answers for global product platforms and more stringent CO<sub>2</sub> requirements.

# Assistant Manager – Product Design Engineering

## Join us in shaping the future of mobility. And yours.

You are there when we work together to shape the future of mobility! Become part of our interdisciplinary, international team at the location in Bengaluru, India

### How your future looks like with us

- O Design Engineer role for Electric Mid & Hub Motors.
- Making of Engineering design 2D & 3D design for the New design & customer projects for the Electric Mid & Hub motors using Unigraphics tool.
- Knowledge of Electrical Motor design, application, failures in very good level.
- Knowledge on basic electronics, electronic circuits & mechanical design.
- Making of Bill of material, SOR evaluation, Product finalisation, DVP making.

### What we will offer you in the future

- Innovation and scope for growth
- O International exposure
- Excellent working atmosphere

### What you bring with you for a future with us

- 5 to 6 years of experience in Automotive Design and development
- C Education Qualification: B E in Electrical & Electronics / Mechanical
- Prior experience from product development/Simulation/manufacturing preferred
- O Knowledge on Electrical/Electronic circuits, GD & T
- O Knowledge on Manufacturing process
