

For more than a century, we have been shaping progress in our product sector as technology leader – whether it's starter motors, generators, start/stop systems or mild hybridization. Innovation, development expertise and the highest quality standards make us a reliable partner for automotive manufacturers – at 16 locations worldwide. Our products are not only efficient and durable, but also provide high functional flexibility and the right answers for global product platforms and more stringent CO<sub>2</sub> requirements.

## Senior Engineer/Assistant Manager – Product and Process Quality Management

### Join us in shaping the future of mobility. And yours.

You are there when we work together to shape the future of mobility! Become part of our interdisciplinary, international team at the location in Bengaluru, India

#### How your future looks like with us

- Sub assembly, Quality and Reliability Audit / Inspection
- Internal rejections and problem-solving methodology
- CTQ's and CTP's
- Product Launch Quality
- Concessions / deviation tracking
- Internal defect cost reduction
- Measurement System Analysis and Gauge Repeatability & Reproducibility

#### Responsible for Process Quality

- Process / Line release of SEG Electrification assembly and sub assembly lines
- Hands on experience in solving problems with electrical and electronic parts
- Process audit and improvements (VDA 6 part 3)

#### What we will offer you in the future

- Innovation and scope for growth
- International exposure
- Excellent working atmosphere
